Primary Exempt Purpose

Primary Exempt Purpose

To raise awareness, educate doctors, patients and caregivers, advance research through expert collaboration and fundraising, and provide support and advocacy for the MOGAD community.

First Program Service Accomplishments Description

Description

studies by medical institutions and The MOG Project itself, clinical trial information, support group information and registration, as well as community outreach information. In order to provide patients with the latest in the continually changing research in MOGAD, we use the website to provide quick access to podcasts from our YouTube channel and links to information from our collaborative partners. The website also supports an online store, providing awareness merchandise for purchase. In addition, the website provides blog space for patient stories, podcast summaries, news, announcements and events. With MOGAD being a rare neuroimmune condition, patients are unlikely to meet another patient in their area. This website is their portal to finding others with the disease for support and learning about the medical professionals who treat the disease as well as gaining an education on the disorder. We are committed to these patients and plan on maintaining the website for years to come. We benefit over 5000 people who have found our website worldwide, mostly in the US. In 2022, one of our major expenses was to increase the SEO for our website to extend our reach through searchability on google. Our goal was to allow those who search the web to find us through relevant search terms in order to better serve the population with connections to MOGAD.

Second Program Service Accomplishments Description

Description

patients and caregivers together to share advice based on their personal experience with the disease. We do not offer medical advice during these sessions, but patients can learn how to self-advocate to receive the best care possible from their own medical team, including what questions to ask their doctor and about the latest news The MOG Project has to offer concerning research and new findings in the MOGAD Community of researchers. 300 people are regularly signed up for our yearly sessions. Our expert visitations by MOGAD clinicians are on a volunteer basis and occur quarterly throughout the year for all 3 support groups.

Other Program Service Accomplishments

Description	Grants And Allocations	Includes Foreign Grants	Program Service Expenses
The MOG Project affects research by offering clinicians and researchers patient survey data from MOGAD patient volunteers around the world. These surveys target key areas that ignite ideas and propel research forward. We use an IRB approved survey tool and incur some expenses in creating data for researchers.	0		108
The website also offers MOGAD gear which helps bring our patient community together, raises funds for some of our administrative costs, and brings awareness to the disease. We offer a variety of MOG-related merchandise and ship to customers who order from our website. There is some cost in creative fees for the design of the merchandise as well as all that goes into selling the gear.	0		968
The MOG Project is a 100% volunteer organization but as a 501(3)c organization, it incurs operating costs including trademark fees, insurance, yearly compliance fees related to non-profit state registration fees as well as PO Box costs, accounting platform fees and banking fees.	0		3,667
We attend various conferences to learn about MOGAD, get researchers interested in MOGAD research and to teach patients about the disease. There are travel-related costs and booth fees associated with these activities.	0		7,634
We provided a special program in 2022 to organize a medical gathering in Boston at Harvard University where we created a patient educational resource as a Q&A and series of FAQ videos answering the most important topics in the disease. These were answered by some of the most prominent experts in the disease. They were in Boston for a meeting already, so we traveled there, held a meeting with them and video recorded the session. The video was edited and produced, then website work was done to support the dissemination of that resource by implementing it on the website and improving the SEO for better reach to a wider audience.	0		29,136
